

BLOC-SOLID.

OCTA-BLOC's interlocking concrete blocks are cost effective, versatile and made to last.

The OCTA-BLOC product line from Inland Concrete Limited consists of a variety of concrete stacking blocks. Available in a range of grades, OCTA-BLOC satisfies the requirements of even the most demanding projects.

With a wide variety of shapes, sizes and finishes to choose from, the OCTA-BLOC system creates durable, visually appealing retaining walls, barriers, foundations for temporary structures, protection bollards, fences and silage bins. OCTA-BLOC features a unique locking system designed to be compatible with most other concrete block systems, making it easy to add on to existing structures.

PERFORMANCE CHARACTERISTICS
